## 2008 THIRD PLACE

## Walter Zesk

- Interior perspective

## Unit plans

The units can adapt to a variety of programmatic requirements. By shifting the modular panel rooms can be reconfigured. By expanding and contracting within the larger structure the unit can change its footprint as families grow and fragment.

Here are three potential units:

Two sigle units joined by a common area at 800 sqft

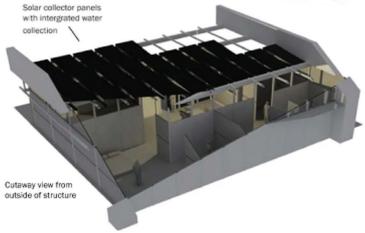

Three bedroom, one bath at 1000 sqft

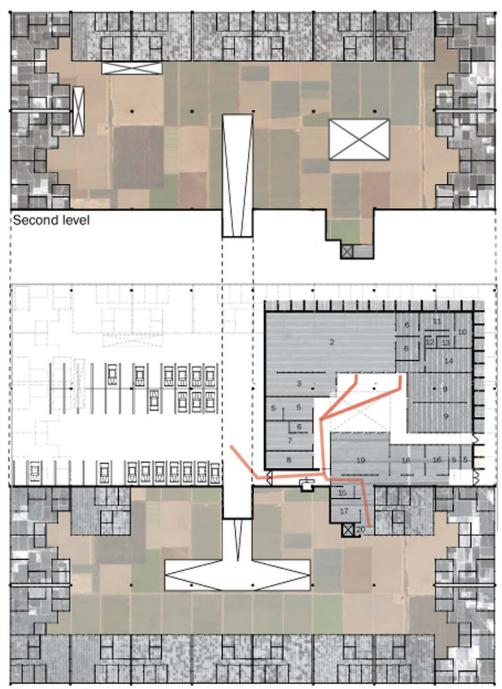

Four bedrooms two baths at 1500 sqft

Evening view into a unit

Ground level
